

# The Lost Castle

Cardial (Pedro Quintela)  
February 2<sup>nd</sup> 2009

There is one secret in this mission:

**Look for a small switch inside the fireplace.**

Objectives:

- Steal the Emerald of Life.
- Loot Goal: 4135 (Normal), 4235 (Hard), 4335 (Expert)
- Don't kill Maximus the Wizard!
- Leave the Castle.

*Where's the emerald?*

When you begin the mission, there's a guard standing in front of a door to your left. First find the key to that door.

Getting to the emerald will not be easy. Before you unlock the doors, make sure you've collected every broadhead and water arrow possible. You will need them all, but not for taking out enemies. How's your shooting skills, taffer?

*What's the code?*
